Point of Sale Software VK-POS

It is a system designed to streamline Point Of Sales (POS) transactions. VK-POS is specialized for Retail Sales and Distribution Sales, it can work stand-alone or integrated with Infor ERP.

Streamline your process from your points of sale

When a single transaction is processed at the Point of Sales, the processes of ordering, shipping, invoice and collection are executed in Infor ERP. Avoid having to perform these operations separately, thus offering great speed and flexibility in the process.
